***Capturing the essence, spirit  
and relationships of the horse***

# Capture your experience at Twincreeks...

A picture or painting can speak a thousand words. Have you captured the spirit of the people, critters and places around you? If you are like most people, you have only captured them in your eyes.

## Want to have some photos of you and your horse taken during your Twincreeks getaway?

Nicole Vaugeois is an equine photographer who often uses the great scenery at Twincreeks for photo shoots.

She offers a special for Twincreeks customers which includes:

- an individual 1.5 hour session with candid and posed shots of you and your horse.
- \$75 per person/horse gets you a CD of high resolution images (edited/cropped).
- Add a session with another horse and the same person for \$50.

Further 10% discount when making a booking for four or more people.

## Are you hosting an event at Twincreeks?

Nicole can do event photography as well for \$75 per hour (minimum \$200) or a daily rate of \$300.

Nicole has taken courses in equine photography with Christina Handley and Laura Cotterman. She uses the camera to capture the essence of the horse and to ensure people have long lasting memories of their equine friends. Many of her subjects are inspiration for her paintings as well.
